PROFESSIONAL SUMMARY

Computer Applications graduate with academic and practical knowledge, strong communication skills, and problem-solving and teamwork abilities. Seeking opportunities to apply technical and organizational expertise to contribute effectively in dynamic and challenging environments.

TECHNICAL SKILLS

Languages & Web Technologies: HTML, CSS, JavaScript, ReactJs, PHP, Python (Basics)

Databases: MySQL, PostgreSQL

Tools & Platforms: VS Code, Jupyter Notebook, Git, GitHub

EDUCATION

Master of Computer Applications (Pursuing) 2025 - Present

Modern College of Science, Commerce and Arts, Shivajinagar, Pune, Maharashtra

Bachelor of Computer Applications (Science) | 9.8 CGPA 2022 - 2025

Modern College of Science, Commerce and Arts, Shivajinagar, Pune, Maharashtra

PROJECTS

E-Commerce Platform | Front-End Web Application 2026

- Built a Myntra-inspired e-commerce platform using React 19, Vite, React Router, and Tailwind CSS v4.
- Implemented category-based product filtering and real-time client-side search for fast product discovery.
- Designed a fully responsive shopping interface, deployed on Vercel, delivering a smooth browsing experience across devices.

University Chatbot | ReactJS Web Application 2025

- Built an interactive AI chatbot using ReactJS that gives students quick, automated answers to common university-related queries.
- Designed a real-time, chat-style conversational interface with a responsive UI across screen sizes.
- Deployed the application on Vercel for fast, reliable access.

Restaurant Dashboard | ReactJS Web Application 2026

- Built a restaurant admin dashboard using React 19, Vite, React Router, and Recharts, covering Dashboard, Menu, Orders, Billing, and Staff sections.
- Built Menu, Orders, and Billing modules enabling table-based order creation and GST-calculated receipts with print and download options.
- Implemented a Staff management module with add, edit, and delete operations and active/on-leave status tracking.

CERTIFICATIONS
